

Dear Mel,

First of all, we would like to apologise for being so determined to meet you, but it is hard to give up when you believe in something so completely.

Our father is a man deeply in love with the Blessed Virgin who is seeking to make a very special movie – an intimate, close and maternal expression of Her life. He instantly thought of you because of your bravery, courage, sensitivity, ability, perseverance, intelligence, strength and FAITH that God has gifted you with, which have overcome all types of barriers in both your professional career and your personal life.

We are determined to make the best movie of the Virgin in all of history, which would be a great act of ministry and a witness to the whole world.

We are prepared to invest whatever it takes to achieve this, although our intention is not to make profits. If the movie is as successful as we expect, we would be content to simply recover our investment, **with all the profits available to you.**

We place our request in the hands of the Virgin and look forward to hearing from you soon to arrange a meeting, anywhere and anytime, at your convenience. The ideal place would be our home in Madrid, so you could meet and experience the environment of our large family.

We are very fortunate to have already had an intimate and close meeting with Ben, Enzo, Alberto and Jean in our home, and there is nothing that could please us more than to work alongside these great and Faithful men.

In the meantime, we look forward with great hope to receiving your reply.

Please received our kindest regards and best wishes,

Familia Ruiz-Mateos Rivero
